## Invitation for Thursday, 11<sup>th</sup> of June NZISF seminar

(on ZOOM)

Event Details

or use

### Seminar topic:

#### The CISO as Board Advisor:

- **Navigating the Agentic AI Security Landscape**
- **How Security Leaders Become Indispensable to Boards in the Age of Autonomous AI**

As organizations race to deploy Agentic AI, boards face a governance gap they cannot close alone. This session equips CISOs, aspiring security leaders, and university students with the frameworks, language, and practical tools to become indispensable board advisors. Drawing on the NACD-ISA Director's Handbook on Cyber-Risk Oversight (2026), the NACD AI in Cybersecurity Handbook, and AWS's Executive Guide to Agentic AI, participants will learn to translate complex security risks into board-level business conversations. From the dual-use paradox of AI-powered defense and offense, to regulatory exposure under the SEC, EU AI Act, and NIS2, this session delivers a career-defining playbook for security leaders ready to shape governance at the highest level.

### Presenter:

#### Stephen Kraemer

Stephen Kraemer is a pioneering Enterprise Technologist and board and executive advisor at AWS, driving cloud adoption and digital transformation across the Asia Pacific Japan and China region. Leveraging a 30-year international career spanning government, retail, and scientific research, he has led transformative initiatives for organizations like the US State Department, Oracle and locally around the ANZ region. Championing culture and leadership, Stephen holds

a Doctor of Computer Science. He is a certified board director, cybersecurity expert, and active FBI InfraGard member protecting critical infrastructure.
